

# Technical Data Sheet

**Reaction time**  
works during operation

**Application field**  
for use in all diesel and gasoline engines

**Consumption**  
50 ml for 1 L

**Application interval**  
with every oil change or on demand

## Ceramic Engine Protect

### Application

Add to the warm engine oil after every oil change to ensure rapid distribution of the additive and optimal dosing of the oil level. Sufficient to treat 6 L of engine oil. For larger volumes add 50 ml per litre engine oil. Product works during operation. After a mileage of 400-600 km the product reaches its optimum performance level.

**Attention: Shake well before use. Check engine oil level before application!**

### Description

GAT Ceramic Engine Protect is a high performance additive for use in all types of engines without wet clutches. Highly effective additive package with wear and tear resistant ceramic for reduced friction and improved wear protection. This increases the emergency running properties of the bearing points and raceways.

### Advantages

Only optimal lubrication guarantees minimum wear and tear as well as a long-life span of the engine and aggregates! Easy to use. Less running noise, reduced friction and wear ensure increased engine performance and optimized fuel consumption and exhaust gas emissions.

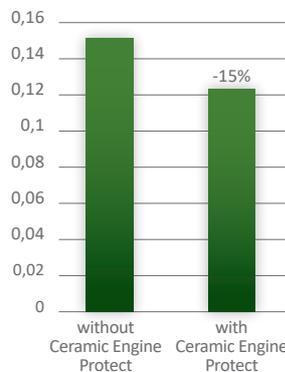

Packing sizes	Packing Unit	Article Number
300 ml	24 x 300 ml	Art. 62002
1 L	12 x 1 L	Art. 62128
5 L	–	Art. 62045
20 L	–	Art. 62446

other sizes available on request

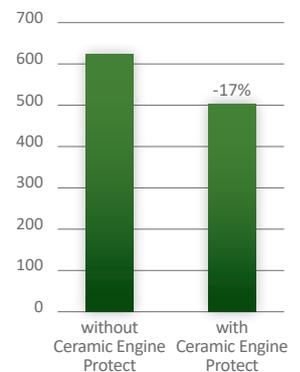

### Properties

Physical state	liquid
Color	light brown – red brown
Density	0,90 g/cm <sup>3</sup>
Flash point	>200°C
Viscosity	>20 mm <sup>2</sup> /s (@ 40°C)

### Coefficient of friction

### Wear abrasion diameter [µm]

Test according to DIN ISO 51834-2

### Compatibility

Mixable with all mineral and synthetic engine oils.

### Safety instructions

Follow the application instructions on the technical data sheet (TDS). Read safety instructions in the Material Safety Data Sheet (MSDS) before using this product. Please keep out of reach of children. If medical advice is needed, have product container or label at hand and call poison centre/ doctor.

### Disposal

Dispose of this product and container according to national/ regional regulations.

Although our information is based on intense product tests and studying and therefore considered as reliable, it nevertheless has solely advisory character.
