

SELENIA MULTIPOWER GAS 5W40 Cod. 1416

DESCRIPTION

Selenia Multipower Gas is a fully synthetic lubricant designed for petrol engines, also turbocharged, powered with methane or LPG. Its exclusive formulation improves valve protection against wear, neutralises the acid compounds formed by the combustion and keeps engine performance level.

CHARACTERISTICS

Selenia Multipower Gas has a special formula that, contributes to obtain, through the blow-by fumes, the best characteristics of adhesiveness, antiwear and cleansing at the interface between valve and valve seat. The elevated starting value of the TBN contribute to neutralize the oil acidity, avoiding the chemical aggression of the parts during the whole drain interval.

- | Fully synthetic lubricant
- | Resistance to wear for the tappets (new special additive)
- | Low viscosity in order to improve the cold start
- | Fuel economy
- | Greater protection for modern TWC
- | In force also for Euro 5 engine
- | Maximum International specifications

ADVICE ON USE

As per OEM owner manual

RECOMMENDED BY

Fiat - Lancia - Alfa Romeo

TECHNICAL DATA

SAE 5W-40, API SM, ACEA C3,
FIAT 9.55535-T2 CONTRACTUAL TECHNICAL REFERENCE N°F922.E09
